

MODEL 1908 MAUSER

THE REAL CLASSIC.

As a combat proven military rifle...as a dependable hunting rifle...few firearms have done more to earn the name "classic" than the Model 1908 Mauser with that reliable old M98 action.

Springfield Armory is offering German manufactured Model 1908 Brazilian Mausers, purchased directly from Brazilian government surplus stocks. All are original military rifles chambered in 7X57mm, and they all have the original German "DWM" markings and the Brazilian crest engraved on the receiver. Best of all, they all feature that unmatched old world quality and Mauser's famed M98 action, an action that's so superior, it's still being copied today.
